DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Group I. Claims 1-30, and 36-43 drawn to a shredder apparatus, classified in class 241.
- Group II. Claims 31-35, and 44-48 drawn to a method of shredding, classified in class 241.

Inventions of Group II and Group I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus of Group I as claimed can be practiced by another materially different process and not necessarily the specific steps of Group II. For example, claim 1 does not require rotating the rotor in a direction opposite the first direction as required by claim 31.

Conclusion

A telephone call was made to the attorney of record, John Lungmus, on December 3, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3725

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
